

Amend Section 630  
Title 14, California Code of Regulations  
Re: Designation and Special Area Regulations

- ## V. Update:

The originally proposed regulatory language designating Burton Mesa Ecological Reserve in Santa Barbara County is withdrawn as follows:

(20) Burton Mesa Ecological Reserve, Santa Barbara County  
(A) Motor vehicle use is prohibited, except by department personnel or department  
authorized contractors for management or research, or by law enforcement/public safety  
officers in response to public safety or health hazards.  
(B) Upland game hunting shall be permitted only at such times and in specific areas as  
designated by the department.

The language in the Initial Statement of Reasons is revised accordingly:

The Department proposes designating the following properties as ecological reserves:

1. Leek Springs, 160 acres, ElDorado County
2. Burton Mesa, 5,125 acres, Santa Barbara County
3. Agua Hedionda Lagoon, 186 acres, San Diego County

~~2. Burton Mesa, 5,125 acres, Santa Barbara County as an ecological~~

~~reserve to protect one of the last significant stands of Burton Mesa Chaparral, a rare natural community.~~

~~The addition of two special regulations for Burton Mesa will restrict motor vehicle use to department authorized and public safety purposes to protect the rare chaparral community and allow upland game hunting in areas and at times specified by the Department. Since hunting is not normally permitted on ecological reserves, the special regulations are necessary when the Department determines that this public use is appropriate and will cause no impacts to protected species and habitat.~~

Additional language is added to the Informative Digest to note the presence of the mountain yellow legged frog on the Leek Springs property and its need for protection. The language in the Initial Statement of Reasons is revised as follows:

The following designations are proposed:

1. Leek Springs, 160 acres, El Dorado County as an ecological reserve to protect montane wet meadow and red fir forest habitats for the mountain yellow legged frog, spotted owl, northern goshawk, willow flycatcher, great gray owl, martin, wolverine, Sierra Nevada red fox and downstream fisheries.

Reasons for Modification of Originally Proposed Language of Initial Statement of Reasons:

Unresolved issues relating to management of the property preclude designation of the Burton Mesa property as an ecological reserve at this time.

The additional language in the informative digest pertaining to the presence of mountain yellow legged frogs on the Leek Springs property is added for factual completeness. The presence of the species contributes to the basis for the designation of the property as an ecological reserve and the promulgation of special regulations for habitat and species protection.

The Commission approved the proposed regulatory amendments at the October 25, 2002 meeting in Crescent City.

VI. Summary of Primary Considerations Raised in Support of or Opposition to the Proposed Actions and Reasons for Rejecting those considerations:

No public comments, written or oral, were received during the public comment period.

VII. Location and Index of Rulemaking File:

A rulemaking file with attached file index is maintained at:

VIII. Location of Department files:

IX. Description of Reasonable Alternatives to Regulatory Action:

- (a) Alternatives to Regulatory Action: Designation as a wildlife area in Section 550, Title 14, CCR. This alternative is inappropriate because of the purposes for which these properties were acquired. The sensitive habitat and species require additional protection not provided under Section 550.
- (b) No change Alternative: By not adding these properties and providing special regulations, the appropriate level of protection for the properties is not provided. Also, appropriate public use activities will not be enforceable unless the amendments are made.
- (c) Consideration of Alternatives: In view of information currently possessed, no reasonable alternative considered would be more effective in carrying out the purposes for which the regulation is proposed or would be as effective and less burdensome to the affected private persons than the proposed regulation.

X. Impact of Regulatory Action:

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:  
The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulatory action adds three ecological reserves to Title 14 and special regulations for nine existing reserves in order to provide

maximum protection of wildlife and habitat and to manage appropriate public use. It is not expected to negatively affect businesses, because the regulations are enforced only on the specific state properties named.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California:

None.

- (c) Cost Impacts on a Representative Private Person or Business:

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

None.

- (e) Nondiscretionary Costs/Savings to Local Agencies:

None.

- (f) Programs mandated on Local Agencies or School Districts:

None.

- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4:

None.

- (h) Effect on Housing Costs:

None.

#### Updated Informative Digest (Policy Statement Overview)

Currently, there are 119 ecological reserves designated in Section 630, Title 14, CCR for the purpose of protecting sensitive habitats and species. The Department is requesting that this section be amended to add **two** new ecological reserves to this listing. The **two**

new reserves are:

Leek Springs consisting of 160 acres in El Dorado County for the protection of wet meadow and red fir forest for the **mountain yellow legged frog**, spotted owl, northern goshawk, willow flycatcher, great gray owl, marten, wolverine, Sierra Nevada red fox and downstream fisheries.

Agua Hedionda Lagoon, 186 acres, San Diego County as an ecological reserve to protect southern willow riparian forest and salt marsh for the light-footed clapper rail, least Bell's vireo, Belding's savannah sparrow, coastal California gnatcatcher and willow flycatcher.

The reasons for listing these properties in Title 14 are to regulate public use and provide the best available protection for the species and habitats the properties were acquired to protect. Since the properties contain sensitive species and important vegetation communities, and act as linkages for other important protected lands, it is necessary and appropriate to provide this level of regulatory protection to prevent improper use and degradation of wildlife resources. In order to do this efficiently, the Department has a set of general regulations which apply to all ecological reserves.

The Department may write special regulations for individual properties, as it thinks appropriate, to give an additional level of protection, or to permit specific public uses not governed by the general regulations. The Department is requesting special regulations for these reserves based on management information gathered which shows these amendments are necessary to protect the habitat or species within the properties.

Special regulations for Leek Springs Ecological Reserve will allow entry by permission of the regional manager only and prohibit fishing, pets, horses and bicycles in order to protect sensitive habitat and species. Vehicles will be prohibited, except for use by adjacent landowners and authorized personnel who may only use a road easement which bisects the property.

Special regulations for Agua Hedionda Lagoon Ecological Reserve will prohibit fishing to protect vegetation and species, and allow for cooperative management of the reserve for fish and wildlife, and public safety with the County of San Diego.

For existing reserves, the Department wishes to amend special area regulations for Macklin Creek, Carrizo Plains, Morro Dunes, Blue Sky, Rancho Jamul, Upper Newport Bay, Carrizo Canyon, Magnesia Spring and Santa Rosa Plateau ecological reserves. Amendment of special area regulations for Carrizo Plains, Morro Dunes, and Rancho Jamul ecological reserves will identify new and existing units of the reserves to assist in carrying out management and public use activities, and additionally for Rancho Jamul, to allow activities associated with planned educational, conference, training and regional land management activities. An additional amendment for Carrizo Plains will allow nighttime biological surveys and associated activities.

Special regulations at Macklin Creek Ecological Reserve will prohibit fishing, hunting and

public access to protect the federally threatened Lahontan cutthroat trout, while two special regulations at Upper Newport Bay Ecological Reserve will limit fishing and boating to certain areas to protect vegetation and sensitive species.

Special regulations will prohibit pets from entering Carrizo Canyon and Magnesia Spring ecological reserves unless they remain inside a motor vehicle for the protection of peninsular bighorn sheep. The addition of a special regulation for Blue Sky Ecological Reserve will prohibit bicycles to protect vegetation and species. A special regulation limiting equestrian use to docent led tours at Santa Rosa Plateau Ecological Reserve will be deleted to allow improved access to equestrian trails.

**The originally proposed regulatory language designating Burton Mesa Ecological Reserve in Santa Barbara County is withdrawn pending the resolution of management issues on the property. Consequently, the originally proposed regulatory language is amended as follows:**

~~(20) Burton Mesa Ecological Reserve, Santa Barbara County~~

~~(A) Motor vehicle use is prohibited, except by department personnel or department authorized contractors for management or research, or by law enforcement/public safety officers in response to public safety or health hazards.~~

~~(B) Upland game hunting shall be permitted only at such times and in specific areas as designated by the department.~~

**The information contained in the original Initial Statement of Reasons is revised accordingly as follows:**

**The Department proposes designating the following properties as ecological reserves:**

4. Leek Springs, 160 acres, ElDorado County
5. Burton Mesa, 5,125 acres, Santa Barbara County
6. Agua Hedionda Lagoon, 186 acres, San Diego County

~~2. Burton Mesa, 5,125 acres, Santa Barbara County as an ecological reserve to protect one of the last significant stands of Burton Mesa Chaparral, a rare natural community.~~

~~The addition of two special regulations for Burton Mesa will restrict motor vehicle use to department authorized and public safety purposes to protect the rare chaparral community and allow upland game hunting in areas and at times specified by the Department. Since hunting is not normally permitted on ecological reserves, the special regulations are necessary when the Department determines that this public use is appropriate and will cause no impacts to protected species and habitat.~~

The Fish and Game Commission approved the proposed regulatory amendments at the October 25, 2002 meeting.

Section 630, Title 14, CCR, is amended to read:

### **§630. Ecological Reserves.**

The areas specified in this chapter have been declared by the Fish and Game Commission to be ecological reserves. A legal description of the boundaries of each ecological reserve is on file at the department's headquarters, 1416 Ninth Street, Sacramento. Ecological reserves are established to provide protection for rare, threatened or endangered native plants, wildlife, aquatic organism and specialized terrestrial or aquatic habitat types. Public entry and use of ecological reserves shall be compatible with the primary purposes of such reserves, and subject to the following applicable general rules and regulations, except as otherwise provided for in the special area regulations:

Refer to subsection 550(b)(16)(B), Title 14, CCR, for regulations for fee requirements for wildlife areas.
